**Please share additional topics for the agenda.**

### Draft Agenda:

- Introductions
- Additional Topics for today's discussion?
- Nutrients
  - Overview of the R8 Nutrient Strategy
    - Q&As from the state
    - Thoughts/ reactions to the document overall
  - Discussion of Draft EPA Priorities and Activities for State Collaboration
    - Feedback from the state regarding:
      - Does the state support the proposed activities?
      - Should we modify/ drop any of the activities?
      - Are there activities that should be added?
      - Are resources needed to support these activities?

- Should we identify timelines for completing any of the work?
- Review Action Items/Next Steps

## Specific ND section from the strategy

### North Dakota

- *Criteria Development*: Continue collaboration with NDDEQ to develop numeric nutrient criteria for Lake Sakakawea.
- *303(d) Listing*: Collaborate with NDDEQ to develop an assessment methodology to identify nutrient impaired waters (e.g., lakes/ reservoirs) under their new nutrient narrative standard.
- *NPS*: Work with NDDEQ to emphasize nutrient reduction and HABs reductions in the update of NPS management plan (2021-2026) and collaborate with NDDEQ as they move from HABs awareness to action.
- *International Red River Board*:
  - Submit IJC proposal to support optimization training for mechanical plants and lagoons in the International Red River Basin and assist in delivery of training;
  - Track progress by IJC and governments on adoption of nutrient thresholds for Red River and assist IRRB as needed.
